

Rabi Narula

Rabi Narula is a partner in the law firm of Knobbe, Martens, Olson & Bear, LLP. Mr. Narula represents a wide variety of technology companies. He is primarily involved in developing patent protection and providing counsel on infringement issues, due diligence, and licensing matters. Mr. Narula also has extensive experience in *Inter Partes* and *Ex Parte* Patent Reexamination proceedings, reissue applications and appeals to the Board of Patent Appeals and Interferences. Before entering the practice of law, Mr. Narula worked as a research engineer for ABB Power Plant Laboratories in Windsor, Connecticut, where he was responsible for testing and developing advanced coal, oil and gas burners. Mr. Narula received his Bachelors Degree in Mechanical and Aerospace Engineering from the University of California, Irvine and his Masters Degree in Mechanical and Engineering from Stanford University. He received his J.D. from the University of California, Los Angeles School of Law in 1999.
